METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. XXI.

November, 1939—April, 1940.

KENNEDY PRESS LIMITED
21, Albion Street
GAYTHORN, MANCHESTER 1

INDEX

Page

A

Alloy Steel Manufacture, Electric Tropenas 4
Aluminium Alloys in Aircraft, Use of. By W. C. Devereux, F.R.Ae.S. 11–14
Aluminium, The Deep Drawing of. By A. G. C. Gwyer, B.Sc., Ph.D., and P. C. Varley, M.A., Inst.P. 19–22
Aluminium and Its Alloys, The Welding of 25–26
A Review of British Industry, 1939-1940 31–32
Alloys, Copper-Rich Nickel-Aluminium-Copper 36
Alloys, Copper and Copper. By H. H. Miller, M.Sc. 43–46
Aluminium, Light Alloys of. By Professor Dr. A. Von Zeerleder 47–53
Aluminium Reflectors. By A. G. C. Gwyer, B.Sc., Ph.D., and N. D. Pullen, F.I.C. 57–60
A Modern Cast Iron—Meehanite. By E. M. Currie, A.M.I.Brit.F. 63–66
Alloying Elements on the Crystallisation of Copper, The Influence of..... 72
A Note on the Absorption of Graphite in Hardening and Tempering Cast Iron. By Dr. J. E. Hurst 91–94
Annealing, The Structural Changes in Copper Effected by Cold Rolling and..... 94
Action of Water on Copper Pipes, Preliminary Research on the .. 96
Aluminium, Import Licensing of .. 96
America, The Manufacture of Pig Iron in. By Wm. A. Haven 97–101
A High-Silicon Acid-Resisting Alloy —Hypersilid 102
Alloys for Bearings, Low Lead-Silver 103–104
Aluminium and Its Alloys, Practical Aspects of Working 105
Aluminium and Aluminium-Alloy Sheet, The Production of. By Wm. Ashcroft 106–110
Aluminium-Alloy Tubes and Sections, Working. By Norman L. Brown..... 110
Aluminium-Alloy Castings, The Production and Treatment of. By a Special Contributor ...111–114
Aluminium Alloys, The Forging of. By R. Worsdale.....117–120
Aluminium and Aluminium-Alloy Sheet, Working. By a Special Contributor 122
Aluminium, the Machining of 122
Aluminium Light Alloys, The Polishing, Plating and Anodising of. By E. E. Halls 123–126
Aluminium Production, Japanese Research on 126
Anti-Piping Compounds and Their Influence on Major Segregation in Steel Ingots. By E. Gregory, Ph.D., M.Sc., F.I.C. 149–151
A Metallurgical Survey of Machine Cutting Tools. By H. W. Pinder. 160–162
Aluminium Industry in 1939, United States 166
Aluminium and Aluminium Alloys for Aircraft Purposes, Wrought . 170
A Blast-Furnace Turbo-Blower, For 140,000 cub. ft./min. Output at 34 lb. per sq. in g. Pressure. By D. W. Rudorff, A.A.I.E.E. ..173–176

Page

B

British Industry, A Review of. 1930-1940 31–32
Bearings, Low Lead-Silver Alloys for.....103–104
Bronze, Copper - Zirconium - Cadmium 133–134
Bells and Cannon. By Ernest Morris, F.R.Hist.S. 137–138
British Machine - Tool Industry, The 141–142
Brittle Phase in High - Chromium Steels, The. By J. H. G. Monypenny, F.Inst.P. 143–148
British Machine-Tool Industry, Progress of the.....155–160
Blast-Furnace Turbo-Blower, A. For 140,000 cub. ft./min. Output at 34 lb. per sq. in. g. Pressure. By D. W. Rudorff, A.A.I.E.E. 173–176
British Machine-Tool Industry, The 178

C

Copper, Nickel Addition to—Torsional Properties. By W. F. Chubb, Ph.D., B.Sc. 7–10
Control, Industrial Management and Production. Part XI. Maintenance. By F. L. Meyenberg 15–17
Constitution of Dilute Alloys of Lead with Sulphur, Selenium and Tellurium. By J. Neill Greenwood, D.Sc., and H. W. Worner, M.Sc. 18
Circulation, Put Your Scrap Metal Into..... 32
Copper - Rich Nickel - Aluminium-Copper Alloys..... 36
Copper and Copper Alloys. By H. J. Miller, M.Sc. 43–46
Cast Iron, Ten Years Progress in. By J. G. Pearce, M.Sc., F.Inst.P. 41–42
Control, Industrial Management and Production. Part XII. Organisation, Extension and Limits of Inspection. By F. L. Meyenberg 54–56
Copper, The Diffusion of Oxygen in 56
Cast Iron, A Modern—Meehanite. By E. M. Currie, A.M.I.Brit.F. 63–66
Control, Industrial Management and Production. By F. L. Meyenberg 69–72
Crystallisation of Copper, The Influence of Alloying Elements on 72
Carbon Steels, Manganese in. By Bernard Thomas, F.Inst.P., M.Inst.M.....73–75
Certain Intermetallic Lattices, On the Nature of..... 76
Cooling on the Transformation and the Properties of Vanadium Steel, The Influence of the Rate of.... 82
Corrosion in Zinc 84–85
Cast Iron, A Note on the Absorption of Graphite in Hardening and Tempering. By Dr. J. E. Hurst 91–94
Changes in Copper Effected by Cold Rolling and Annealing, The Structural 94
Copper Pipes, Preliminary Researches on the Action of Water on 96
Castings, The Production and Treatment of Aluminium-Alloy. By a Special Contributor 111–114
Cast Iron, Temperature Control and Superheating for 132
Copper-Zirconium-Cadmium Bronze 133–134

Page

Cast Irons, The Structure and Mechanical Properties of Special 134
Cannon, Bells and. By Ernest Morris, F.R.Hist.S. 137–138
Creep of Some Chromium-Molybdenum Steels 138
Chromium Steels, The Brittle Phase in High. By J. H. G. Monypenny 143–148
Compounds and Their Influence on Major Segregation in Steel Ingots, Anti-Piping. By E. Gregory, Ph.D., M.Sc. 149–151
Cutting Tools, A Metallurgical Survey of Machine. By H. W. Pinder 160–162
Curves, The Evaluation of Time-Elongation, According to Various Methods for the Determination of the Creep Strength, and a Comparison of the Results with those of Long-Time Tests 165
Coarse and Fine Crystalline Materials at Low and Elevated Temperatures. Notching—Its Effect on. Dr. G. Welter 179–186
Corrosion Research Work at Cambridge University, Report of. By Dr. U. R. Evans.....189–190
Coupled Roller Motors, Direct..195–196
Corrosion of Ship Structures, Electrolytic. By Dr. J. H. Paterson. 197–200

D

Dilute Alloys of Lead with Sulphur, Selenium and Tellurium. The Constitution of. By J. N. Greenwood, D.Sc., and H. W. Worner, M.Sc. 18
Diffusion of Oxygen in Copper, The 56
Determination of the Initial Diameter of Wire Before Rolling it Flat into Strips of Given Dimensions 154
Determination of Creep Strength, and a Comparison of the Results with those of Long-Time Tests, the Evaluation of Time-Elongation Curves, According to Various Methods for the..... 165
Direct Coupled Roller Motors 195

E

Electric Tropenas Alloy Steel Manufacture 4
Expansion of Non-Ferrous Metal Production in Russia. By a Special Correspondent..... 14
Electric Welding as an Integral Part of Structural Design. By Professor B. P. Haigh 27–28
Electric Plant and Equipment, Progress in 68
Elements on the Crystallisation of Copper, The Influence of Alloying 72
Economies, War-Time 95
Extrusion of Aluminium Alloys, The. By R. Worsdale 117–120
Endurance of Killed and Rimmed Steels, The Fatigue Endurance of 153
Evaluation of Time-Elongation-Curves, according to Various Methods for the Determination of the Creep Strength, and a Comparison of the Results with those of Long-Time Tests 165

Page

Effect on Coarse and Crystalline Materials at Low and Elevated Temperatures. Notching—Its. By Dr. G. Welter 179–186
Electrolytic Corrosion of Ship Structures. By Dr. J. H. Paterson 197–200

F

Furnace Installation, A Recent Heat-Treatment. By P. Hopkinson 23–24
Flow in Metals, Plastic 75–76
Forging of Aluminium Alloys, The. By a Special Contributor 115–116
Furnaces, Refractory Materials for Reverberatory. By Alfred B. Searle 129–131
Fatigue Endurance of Killed and Rimmed Steels, The 153
Forgings. A Note on the Macro-Etching of Magnesium-Alloy. By W. H. Dearden, M.Sc. 196

G

Galvanising of Wire, The Hot. By a Special Contributor 77–80
Graphite in Hardening and Tempering Cast Iron, A Note on the Absorption of. By Dr. J. E. Hurst 91–94
Galvanising of Wire, The Hot. By a Special Contributor 127–128
Germany and Swedish Ore 178
Grain Boundaries and Nitrided Cases; Method of Sclero-Grating Employed for the Study of. Grain Structure Revealed by Cutting. By Bo. W. L. Ljunggren ...191–192

H

Heat-Treatment Furnace Installation, A Recent. By P. Hopkinson 23–24
Heat-Resisting Steels 40
Hot Galvanising of Wire, The. By a Special Contributor 77–80
Hardening and Tempering of Cast Iron. By Dr. J. E. Hurst....91–94
Hypersilid—A High-Silicon Acid-Resisting Alloy 102
Hot Galvanising of Wire. By a Special Contributor 127–128
High Chromium Steels, The Brittle Phase in. By J. H. G. Monypenny 143–148
High Temperatures, Difficulties Encountered in Recording 186

I

Industrial Management and Production Control. Part XI. Maintenance. By F. L. Meyenberg..15–17
Imports, Licensing of Machinery.. 22
Industry, A Review of British, 1930-1940.....31–32
Iron, Ten Years Progress in Cast. By J. G. Pearce, M.Sc., F.Inst.P. 41–42
Industrial Management and Production Control. Part XII. Organisation, Extension and Limits of Inspection. By F. L. Meyenberg 54–56
Iron, A Modern Cast—Meehanite. By E. M. Currie, A.M.I.Brit.F. 63–66
Industrial Management and Production Control. By F. L. Meyenberg 69–72
Influence of Alloying Elements on the Crystallisation of Copper.... 72
Influence of the Rate of Cooling on the Transformation and the Properties of Vanadium Steel, The 82
Industry in 1939, The Nickel 85
Iron, A Note on the Absorption of Graphite in Hardening and Tempering Cast. By Dr. J. E. Hurst 91–94
Import Licensing of Aluminium .. 96
Iron in America, The Manufacture of Pig. By Wm. A. Haven ..97–101

Page

Iron, The Structure and Mechanical Properties of Special Cast 134
Instrument Unit Springs. By Richard Saxton 139
Industry, The British Machine Tool 141–142
Ingots, Anti-Piping Compounds and Their Influence on Major Segregation in Steel. By E. Gregory, Ph.D., M.Sc. 149–151
Initial Diameter of Wire Before Rolling it Flat into Strips of Given Dimensions, Determination of the..... 154
Industry, Progress of the British Machine-Tool Industry.....155–160
Iron and Steel Institute..... 178
Institute of Metals 178

J

Japanese Research on Aluminium Production..... 126

K

Keep Trade Channels Open 67

L

Lead with Sulphur, Selenium and Tellerium, The Constitution of Dilute Alloys with. By J. Neill Greenwood, D.Sc., and H. W. Worner, M.Sc. 18
Light Alloys of Aluminium. By Professor Dr. A. Von Zeerleder 47–53
Lattices, On the Nature of Certain Intermetallic 76
Low Lead-Silver Alloys for Bearings 103–104
Light Alloys, The Polishing, Plating and Anodising of the Aluminium. By E. E. Halls 123–126

M

Metallurgists and the Forces 5
Metallurgy, Research in Steel 6
Metal Production in Russia, Expansion of Non-Ferrous. By a Special Correspondent..... 14
Management and Production Control, Industrial. Part XI. Maintenance. By F. L. Meyenberg 15–17
Machinery Imports, Licensing of .. 22
Metal into Circulation, Put Your Scrap 32
Magnesium Research, Alloys of .. 36
Management and Production Control, Industrial. Part XII. Organisation, Extension and Limits of Inspection. By F. L. Meyenberg 54–56
Modern Cast Iron, A—Meehanite. By E. M. Currie, A.M.I.Brit.F. 63–66
Management and Production Control, Industrial. By F. L. Meyenberg 69–72
Manganese in Carbon Steels. By Bernard Thomas, F.Inst.P., M.Inst.M.....73–75
Metals, Plastic Flow in 75–76
Metallurgical Problems, Solutions to Some. By L. Sanderson ..83–84
Metals in the Service of Mankind. By A. Pinkerton 87–88
Manufacture of Pig Iron in America. By Wm. A. Haven.....97–101
Machining of Aluminium, The 122
Mechanical Properties of Special Cast Irons, The Structure and .. 134
Machine-Tool Industry, Progress in the British 155–160
Metallurgical Survey of Machine Cutting Tools. By H. M. Pinder 160–162
Method of Sclero-Grating Employed for the Study of Grain Boundaries and of Nitrided Cases; Grain Structure Revealed by Cutting. By B. W. L. Ljunggren 191–192
Macro-Etching of Magnesium-Alloy Forgings. A Note on the. By W. H. Dearden, M.Sc. 196

N

Page

Note on the Absorption of Graphite in Hardening and Tempering Cast Iron, A. By Dr. J. E. Hurst..91–94
Notching—Its Effect on Coarse and Fine Crystalline Materials at Low and Elevated Temperatures. By G. Welter 179–186
Nickel Addition to Copper, Torsional Properties. By W. F. Chubb, Ph.D., B.Sc. 7–10
Non-Ferrous Metal Production in Russia, Expansion of. By a Special Correspondent..... 14

O

Oxygen Panel, The Work of the .. 53
Oxygen in Copper, The Diffusion of 56
On the Nature of Certain Intermetallic Lattices 76
Oxygen/Hydrogen/Molten-Iron System, The. By Dr.-Ing. Henry Lepp 163–165

P

Properties, Nickel Addition to Copper-Torsional. By W. F. Chubb, Ph.D., B.Sc. 7–10
Production Control, Industrial Management and. Part XI. Maintenance. By F. L. Meyenberg 15–17
Progress in Steel Metallurgy during the Last Ten Years. By Dr. W. H. Hatfield, F.R.S. 33–35
Progress in Cast Iron, Ten Years. By J. G. Pearce, M.Sc., F.Inst.P. 41–42
Panel, The Work of the Oxygen .. 53
Production Control, Industrial Management and. Part XIII. Organisation, Extension and Limits of Inspection. By F. L. Meyenberg 54–56
Progress in Electric Plant and Equipment 68
Production Control, Industrial Management and. By F. L. Meyenberg 69–72
Plastic Flow in Metals.....75–76
Properties of Vanadium Steel, The Influence of the Rate of Cooling on the Transformation and the 82
Preliminary Researches on the Action of Water on Copper Pipes 96
Pig Iron in America, The Manufacture. By Wm. A. Haven 97–101
Practical Aspects of Working Aluminium and Its Alloys 105
Production of Aluminium and Aluminium-Alloy Sheet. By Wm. Ashcroft 106–110
Production and Treatment of Aluminium-Alloy Castings, The. By a Special Contributor 111–114
Polishing, Plating and Anodising of the Aluminium Light Alloys. The. By E. E. Halls 123–126
Production, Japanese Research on Aluminium 126
Properties of Special Cast Irons, The Structure and Mechanical .. 134
Plastic Flow of Metals, The. By Hugh D. Mallon, B.Sc., A.R.T.C. 151–152
Progress of the British Machine-Tool Industry.....155–160
